Professional Profile

Computer Scientist currently pursuing a Master's degree at the University of Bologna, with 3 years of experience delivering scalable, end-to-end distributed systems.

Experience

Leaf Space, Backend Software Developer — Como, Italy
Sept 2026 – present
2 months

- Contributing to the scheduling and orchestration platform that allocates antenna time across a worldwide ground station network, delivering reliable space-to-ground connectivity.

Cubbo, Software Engineer — São Paulo, Brazil
Dec 2024 – Oct 2025
11 months

- Led the end-to-end integration with Natura & Co, Latin America's leading beauty and personal care company, enabling the launch of new distribution centers in Porto Alegre and Manaus, resulting in over $10M in revenue in 2025. Managed a team of five engineers.

Cubbo, Junior Full Stack Engineer — Mexico City, Mexico
Nov 2022 – Dec 2024
2 years 2 months

- Designed and delivered an end-to-end shipment tracking page, enhancing customer experience and transparency. The website serves around 500K+ users annually and was built using React.js and Ruby on Rails.
- Implemented an auto-scaling system for background job processing based on queue latency through Heroku API. Reduced non-web server costs by 60% and boosted performance under high load.
- Optimized the company's flagship Warehouse Management System core features such as inbound, stock allocation, picking, packing, and outbound dispatch, boosting operational productivity.
- Implemented tax-compliant invoicing system for NF-e, CT-e, NFS-e, and GNRE to support fulfillment and shipping operations using Webmania and Dootax APIs.
- Integrated with leading ERPs and carriers, driving business growth and capitalizing on market opportunities.

Capgemini, Salesforce B2C Commerce Developer Intern — Barcelona, Spain
Oct 2021 – Feb 2022
5 months

- Integrated Adyen payment gateway into Storefront Reference Architecture of Salesforce Ecommerce Cloud.
- Customized SFRA components using HTML5, CSS3, JS and following SPA and MVC patterns. Follow-up of Loewe e-commerce launch.

Universitat de Barcelona, Collaborative Scholarship in Information Technology — Barcelona, Spain
Sept 2019 – July 2020
11 months

- Provided software maintenance and support to faculty, staff, and students.

Education

MS **Alma Mater Studiorum - Università di Bologna**, Computer Science — Bologna, Italy
Sept 2025 – July 2027

BS **Universidade de São Paulo**, Computer Engineering — São Paulo, Brazil
- One-year academic exchange at Universidade de São Paulo (USP) — Aug 2020 – July 2021

BS **Universitat de Barcelona**, Computer Engineering — Barcelona, Spain
- Awarded the Beca General scholarship by Spain's Ministry of Education — Sept 2018 – July 2022
- Two-time recipient of the merit-based Santander Progreso Scholarship

Skills

Languages: Spanish (C2), Portuguese (C2), English (C1), Catalan (B2) and Italian (B2)

Soft Skills: Problem-solving, fast learner, teamwork, leadership, communication

Programming Languages: Ruby on Rails, Python, Java Spring, Golang

Cloud & DevOps: Docker, Kubernetes, Linux, AWS, Git, Bash

Data Analysis: SQL, NumPy, Pandas, Scikit-learn, TensorFlow

AI & Machine Learning: LangGraph, MCP, RAG, Vector Databases, LLMs

Projects

AI Fundamentals Tutorial — March 2026
An interactive learning platform that makes AI concepts easier to learn and apply in real projects. It features progressive labs covering the OpenAI client, LangChain, prompt engineering, Vector Databases, RAG pipelines, LangGraph, and MCP implementations.

Healthy Market — May 2024
Fully customized an e-commerce platform with Next.js using Shopify as a headless CMS. Healthy Market brings Brazilian organic products to the world while supporting local cooperatives.

Patient clustering in MIMIC-III for predictive models of hospital mortality and ICU length of stay — Feb 2022 - Jul 2022
Bachelor's thesis applying unsupervised patient clustering on the open-source MIMIC-III database, leveraging Python tools for mortality and ICU stay prediction. The largest cluster achieved a statistically significant 4.7% improvement in mortality prediction accuracy.

MyPillRecord — Feb 2020 - Jul 2020
Android app for medication management, enabling users to organize schedules, set reminders, and access detailed drug information via barcode scanning through API integration. Integrated openFDA Drug API and ZXing Scanner.

Certificates

- **Working with Microservices in Go (Golang)** by Udemy, Oct 2025. Certificate
- **Domain-Driven Design Techniques for Microservices** by Universidade de São Paulo, Jun 2023. Certificate
- **AWS Cloud Technical Essentials** by Amazon Web Services, Sep 2022. Certificate
- **Using Databases with Python** by University of Michigan, Feb 2021. Certificate
- **Responsive Website Basics - Code with HTML, CSS, and JS** by University of London, Feb 2021. Certificate
